# Newspaper Notices

Notices published pursuant to Regulation 4 of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations under Regulation 5(2)(q)

Application Reference 1.3

# 1 Introduction

## 1.1 Legislative framework

- 1.1.1 This document is provided by Forewind Limited in relation to the application for development consent for the Dogger Bank Teesside A & B offshore wind farms.
- 1.1.2 Section 48 of the Planning Act 2008 sets out a requirement for the applicant to publicise any proposed application in the prescribed manner. Regulation 4 of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 provides further detail on the content and extent of the notifications required.
- 1.1.3 This document is submitted under Regulation 5(2)(q) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 as a document necessary to support to application, in order to show compliance with the legislation. All newspaper notices are also displayed in the Consultation Report (document reference 5.1).

## 1.2 Overview of consultation

- 1.2.1 The table below summarises the notices which were published to meet the requirements of Section 48 of the Planning Act. These are provided in full in the remainder of the document.

## Forewind Limited

### Dogger Bank Teesside A & B

### Section 48, Planning Act 2008

#### Regulation 4, The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009

#### Notice of the proposed application for a development consent order (DCO) to construct and operate the offshore wind development Dogger Bank Teesside A & B, including onshore infrastructure in the Borough of Redcar and Cleveland.

1. Notice is hereby given that Forewind Limited (Forewind) of 55 Vastern Road, Reading, Berkshire, RG1 8BU intends to apply to the Secretary of State under section 37 of the Planning Act 2008 ("the Act") for a development consent order (DCO) to authorise the construction and operation of the Dogger Bank Teesside A & B offshore wind development ("the Development").

2. Dogger Bank Teesside A & B is the second stage of development of the Dogger Bank Zone in the North Sea (the first stage being Dogger Bank Creyke Beck). It comprises two offshore wind farm arrays (Dogger Bank Teesside A and Dogger Bank Teesside B) each with a generating capacity of up to 1.2 gigawatts and associated infrastructure. Dogger Bank Teesside A array is 560km<sup>2</sup> in area and 196 kilometres at its closest point from the coast. Dogger Bank Teesside B array is 593km<sup>2</sup> in area and 165 kilometres at its closest point from the coast. Given that the generating capacity of the Development is more than 100 megawatts, an application for development consent is required to be made to the Secretary of State under the provisions of the Act.

3. Forewind's proposed application to the Secretary of State seeks development consent for the construction and operation of both Dogger Bank Teesside A and Dogger Bank Teesside B. The proposals include export cables that will connect the offshore wind farm arrays to the UK on the Teesside coast between Redcar and Marske-by-the-Sea; and onshore cables from the coast to the converter stations and substation near the Wilton Complex. All onshore works are located in the Borough of Redcar and Cleveland.

4. Dogger Bank Teesside A & B, comprising Dogger Bank Teesside A and Dogger Bank Teesside B, will combined incorporate the following elements:

#### Offshore

- Up to 400 wind turbines with supporting tower structures, foundations fixed to the seabed and associated support and access structures;
- Two offshore high voltage direct current (HVDC) converter platforms with foundations fixed to the seabed;
- Up to eight offshore collector platforms with foundations fixed to the seabed;
- Up to four offshore accommodation or helicopter platforms with foundations fixed to the seabed and including facilities for vessels and helicopters for operations and maintenance activities;
- Offshore platforms may be co-joined to create a combined platform, resulting in a combined offshore platform comprising two or more of the platform structures described above;
- Up to ten offshore meteorological monitoring stations with foundations fixed to the seabed;
- Subsea cables between the elements of offshore infrastructure described above;
- Offshore export cables carrying electricity from the offshore HVDC converter platforms to the Teesside coast; and
- Ancillary works including: cable and pipeline crossing structures; protection against foundation scour and subsea damage, cable protection measures and vessel-mooring facilities.

#### Onshore in the Borough of Redcar and Cleveland

- Underground cable transition joint bays at the landfall, located between Redcar and Marske-by-the-Sea on the Teesside coast;
- Underground HVDC export cables running approximately seven kilometres from the landfall joint bays to the two converter stations;
- Two converter stations located within the Wilton Complex, with associated access, fencing, landscaping and drainage;
- Underground high voltage alternating current (HVAC) export cables running approximately two kilometres from the converter stations to the existing National Grid substation at Lackenby, where connection works will be carried out;
- Ancillary works including: temporary working areas, permanent and temporary access roads, and service corridors.

5. The DCO will include a number of other provisions, including those which:

- authorise the compulsory purchase of land and rights over land, if necessary, to construct and maintain the Development;
- allow all or part of the benefit and rights of the DCO to be transferred to other person(s); and
- provide for deemed Marine Licences.

6. The Development is "EIA development" for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. This means that the proposed works require an Environmental Impact Assessment and the proposed application will therefore be accompanied by an Environmental Statement.

7. The documents, plans and maps showing the nature and location of the proposed development, including the preliminary information compiled to date on environmental impacts ("Preliminary Environmental Information"), will be available from to view from **4 November 2013 until 20 December 2013** at the places and times set out below and download from **[www.forewind.co.uk](http://www.forewind.co.uk)**

8. The Preliminary Environmental Information includes a draft Environmental Statement and draft Non-Technical Summary of the Environmental Statement.

#### TOWN AND COUNTRY PLANNING ACT 1990

THE SECRETARY OF STATE hereby gives notice of the proposal to make an Order under section 247 of the above Act to authorise the stopping up of a series of walkways around Charter Place and Meeting Alley along with 11 areas beneath the canopy of the footway to the south of Beechen Grove at Watford, in the Borough of Watford.

IF THE ORDER IS MADE, the stopping up will be authorised only to enable development to be carried out should planning permission be granted by Watford Borough Council. The Secretary of State gives notice of the draft Order under Section 253 (1) of the 1990 Act but will only consider making the Order in the event that planning permission is granted.

COPIES OF THE DRAFT ORDER AND RELEVANT PLAN will be available for inspection during normal opening hours at Watford Borough Council, Town Hall, Watford, Hertfordshire, WD17 3EX in the 28 days commencing on 31 October 2013, and may be obtained, free of charge, from the Secretary of State (quoting NATTRAN/E/S247/1089) at the address stated below.

ANY PERSON MAY OBJECT to the making of the proposed order within the above period by writing to the Secretary of State, National Transport Casework Team, Tyneside House, Skinnerburn Road, Newcastle Business Park, Newcastle upon Tyne, NE4 7AR, quoting the above reference. In submitting an objection it should be noted that your personal data and correspondence will be passed to the applicant to enable your objection to be considered. If you do not wish your personal data to be forwarded, please state your reasons when submitting your objection.

S. Zamenzadeh, Department for Transport (1931365)

#### TOWN AND COUNTRY PLANNING ACT 1990

THE SECRETARY OF STATE hereby gives notice of the proposal to make an Order under section 247 of the above Act to authorise the stopping up of an eastern part width of Sherwood Close comprising its highway verge at Solihull in the Metropolitan Borough of Solihull.

IF THE ORDER IS MADE, the stopping up will be authorised only to enable development to be carried out should planning permission be granted by Solihull Metropolitan Borough Council. The Secretary of State gives notice of the draft Order under Section 253 (1) of the 1990 Act but will only consider making the Order in the event that planning permission is granted.

COPIES OF THE DRAFT ORDER AND RELEVANT PLAN will be available for inspection during normal opening hours at Solihull Council, Library Square, Solihull, B91 3AG in the 28 days commencing on 31 October 2013, and may be obtained, free of charge, from the Secretary of State (quoting NATTRAN/WM/S247/1084) at the address stated below.

ANY PERSON MAY OBJECT to the making of the proposed order within the above period by writing to the Secretary of State, National Transport Casework Team, Tyneside House, Skinnerburn Road, Newcastle Business Park, Newcastle upon Tyne, NE4 7AR, quoting the above reference. In submitting an objection it should be noted that your personal data and correspondence will be passed to the applicant to enable your objection to be considered. If you do not wish your personal data to be forwarded, please state your reasons when submitting your objection.

Denise Hoggins, Department for Transport (1931037)

### Department for Transport

#### TOWN AND COUNTRY PLANNING ACT 1990

THE SECRETARY OF STATE hereby gives notice of the proposal to make an Order under section 247 of the above Act to authorise the stopping up of an irregular shaped eastern part width of cul-de-sac at Tyler Hill Road at Blean, in the City of Canterbury.

IF THE ORDER IS MADE, the stopping up will be authorised only to enable development to be carried out should planning permission be granted by Canterbury City Council. The Secretary of State gives notice of the draft Order under Section 253 (1) of the 1990 Act but will only consider making the Order in the event that planning permission is granted.

COPIES OF THE DRAFT ORDER AND RELEVANT PLAN will be available for inspection during normal opening hours, at Canterbury City Council, Military Road, Canterbury, CT1 1YW in the 28 days commencing on 31 October 2013, and may be obtained, free of charge, from the Secretary of State (quoting NATTRAN/SE/S247/649) at the address stated below.

ANY PERSON MAY OBJECT to the making of the proposed order within the above period by writing to the Secretary of State, National Transport Casework Team, Tyneside House, Skinnerburn Road, Newcastle Business Park, Newcastle upon Tyne, NE4 7AR, quoting the above reference. In submitting an objection it should be noted that your personal data and correspondence will be passed to the applicant to enable your objection to be considered. If you do not wish your personal data to be forwarded, please state your reasons when submitting your objection.

Denise Hoggins, Department for Transport (1931038)

### Department for Transport

#### TOWN AND COUNTRY PLANNING ACT 1990

THE SECRETARY OF STATE hereby gives notice that he has made an Order under sections 249 and 333(7) of the above Act entitled "The Conversion of Highways into Footpaths or Bridleways (County of Greater Manchester) (No. 3) Order 1982 (North West) (No. 51) Variation Order 2013" to permit certain additional vehicles to use the highway to which that Order relates with the prior written permission of Bury Council.

COPIES OF THE ORDER MAY BE OBTAINED, free of charge, from the Secretary of State, National Transport Casework Team, Tyneside House, Skinnerburn Road, Newcastle Business Park, Newcastle upon Tyne, NE4 7AR (quoting NATTRAN/NW/S249/1024) and may be inspected during normal opening hours at Bury Council, Town Hall, Knowsley Street, Bury, BL9 0SW.

ANY PERSON aggrieved by or desiring to question the validity of or any provision within the Order, on the grounds that it is not within the powers of the above Act or that any requirement or regulation made has not been complied with, may, within 6 weeks of 31 October 2013 apply to the High Court for the suspension or quashing of the Order or of any provision included.

Denise Hoggins, Department for Transport (1931344)

### Forewind Limited

#### DOGGER BANK TEESIDE A & B

#### SECTION 48, PLANNING ACT 2008

#### REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009

Notice of the proposed application for a development consent order (DCO) to construct and operate the offshore wind development Dogger Bank Teesside A & B, including onshore infrastructure in the Borough of Redcar and Cleveland.

1. Notice is hereby given that Forewind Limited (Forewind) of 55 Vastern Road, Reading, Berkshire, RG1 8BU intends to apply to the Secretary of State under section 37 of the Planning Act 2008 ("the Act") for a development consent order (DCO) to authorise the construction and operation of the Dogger Bank Teesside A & B offshore wind development ("the Development").

2. Dogger Bank Teesside A & B is the second stage of development of the Dogger Bank Zone in the North Sea (the first stage being Dogger Bank Creyke Beck). It comprises two offshore wind farm arrays (Dogger Bank Teesside A and Dogger Bank Teesside B) each with a generating capacity of up to 1.2 gigawatts and associated infrastructure. Dogger Bank Teesside A array is 560km<sup>2</sup> in area and 196 kilometres at its closest point from the coast. Dogger Bank Teesside B array is 593km<sup>2</sup> in area and 165 kilometres at its closest point from

the coast. Given that the generating capacity of the Development is more than 100 megawatts, an application for development consent is required to be made to the Secretary of State under the provisions of the Act.

3. Forewind's proposed application to the Secretary of State seeks development consent for the construction and operation of both Dogger Bank Teesside A and Dogger Bank Teesside B. The proposals include export cables that will connect the offshore wind farm arrays to the UK on the Teesside coast between Redcar and Marske-by-the-Sea; and onshore cables from the coast to the converter stations and substation near the Wilton Complex. All onshore works are located in the Borough of Redcar and Cleveland.

4. Dogger Bank Teesside A & B, comprising Dogger Bank Teesside A and Dogger Bank Teesside B, will combined incorporate the following elements:

#### Offshore

— Up to 400 wind turbines with supporting tower structures, foundations fixed to the seabed and associated support and access structures;

— Two offshore high voltage direct current (HVDC) converter platforms with foundations fixed to the seabed;

— Up to eight offshore collector platforms with foundations fixed to the seabed;

— Up to four offshore accommodation or helicopter platforms with foundations fixed to the seabed and including facilities for vessels and helicopters for operations and maintenance activities;

— Offshore platforms may be co-joined to create a combined platform, resulting in a combined offshore platform comprising two or more of the platform structures described above;

— Up to ten offshore meteorological monitoring stations with foundations fixed to the seabed;

— Subsea cables between the elements of offshore infrastructure described above;

— Offshore export cables carrying electricity from the offshore HVDC converter platforms to the Teesside coast; and

— Ancillary works including: cable and pipeline crossing structures; protection against foundation scour and subsea damage, cable protection measures and vessel-mooring facilities.

#### Onshore in the Borough of Redcar and Cleveland

— Underground cable transition joint bays at the landfill, located between Redcar and Marske-by-the-Sea on the Teesside coast;

— Underground HVDC export cables running approximately seven kilometres from the landfill joint bays to the two converter stations;

— Two converter stations located within the Wilton Complex, with associated access, fencing, landscaping and drainage;

— Underground high voltage alternating current (HVAC) export cables running approximately two kilometres from the converter stations to the existing National Grid substation at Lackenby, where connection works will be carried out;

— Ancillary works including: temporary working areas, permanent and temporary access roads, and service corridors.

5. The DCO will include a number of other provisions, including those which:

— authorise the compulsory purchase of land and rights over land, if necessary, to construct and maintain the Development;

— allow all or part of the benefit and rights of the DCO to be transferred to other person(s); and

— provide for deemed Marine Licences.

6. The Development is "EIA development" for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. This means that the proposed works require an Environmental Impact Assessment and the proposed application will therefore be accompanied by an Environmental Statement.

7. The documents, plans and maps showing the nature and location of the proposed development, including the preliminary information compiled to date on environmental impacts ("Preliminary Environmental Information"), will be available from to view from 4 November 2013 until 20 December 2013 at the places and times set out below and download from [www.forewind.co.uk](http://www.forewind.co.uk)

8. The Preliminary Environmental Information includes a draft Environmental Statement and draft Non-Technical Summary of the Environmental Statement.

## St. Helens Borough Council

### NOTICE OF CONSERVATION AREA BOUNDARY AMENDMENT PLANNING (LISTED BUILDINGS AND CONSERVATION AREAS) ACT 1990

#### SECTION 69

#### ST. HELENS BOROUGH COUNCIL CONSERVATION AREA (RAINHILL I)

NOTICE is hereby given under Section 69 of the Planning (Listed Buildings and Conservation Areas) Act 1990 that the Council of the Borough of St. Helens after undertaking a full character approval and a wide consultation with the public and relevant organisations which included The English Heritage has determined that the revised area described in the First Schedule to this notice should now be recognised as an area of special architectural or historic interest the character of which it is desirable to preserve or enhance and has therefore designated this area as a conservation area.

The effect of the designation of the conservation area is as follows:

1. Conservation area consent will now be required for the demolition of all buildings (other than excepted buildings) in the area.
2. Any planning application for the development which would in the opinion of the local planning authority affect the character or appearance of the conservation area must be given publicity and representations received as a result of the publicity must be taken into account in determining the application;
3. It becomes an offence subject to certain exceptions to cut down, top, lop, uproot, wilfully damage or wilfully destroy any tree in the area except with the consent of the local planning authority
4. The local planning authority are now under a duty to formulate and publish proposals for the preservation and enhancement of the area.

A map of the conservation and the area renewed from the original Conservation Area as described in the First Schedule to this notice, may be inspected free of charge during normal office hours at the Rainhill Community Library, View Road, Rainhill L35 0LE and at the Town Hall Receptions, Victoria Square, St Helens, WA10 1HP

#### FIRST SCHEDULE

The Rainhill Conservation area I Boundary Amendment includes the following properties:

Inclusion of No. 546 Warrington Road, Rainhill and exclusion of Nos. 537-561 (odds) Warrington Road Rainhill (1931347)

## St. Helens Borough Council

#### SECTION 69

#### ST. HELENS BOROUGH COUNCIL CONSERVATION AREA (RAINHILL II)

NOTICE is hereby given under Section 69 of the Planning (Listed Buildings and Conservation Areas) Act 1990 that the Council of the Borough of St. Helens after undertaking a full character approval and wide consultation with the public and relevant organisations which included the English Heritage has determined that the area described in the First Schedule to this notice should now be recognised as an area of special architectural or historic interest the character of which it is desirable to preserve or enhance and has therefore designated this area as a conservation area.

The effect of the designation of the conservation area is as follows:

1. Conservation area consent will now be required for the demolition of all buildings (other than excepted buildings) in the area.
2. Any planning application for the development which would in the opinion of the local planning authority affect the character or appearance of the conservation area must be given publicity and representations received as a result of the publicity must be taken into account in determining the application;
3. It becomes an offence subject to certain exceptions to cut down, top, lop, uproot, wilfully damage or wilfully destroy any tree in the area except with the consent of the local planning authority
4. The local planning authority are now under a duty to formulate and publish proposals for the preservation and enhancement of the area.

A map of the conservation and the area renewed from the original Conservation Area as described in the First Schedule to this notice, may be inspected free of charge during normal office hours at the Rainhill

### Dogger Bank Creyke Beck – Section 48, Planning Act 2008

#### Forewind Limited Dogger Bank Teesside A & B Section 48, Planning Act 2008 Regulation 4, The Infrastructure Planning.

Forewind has now published notice of the proposed application for a development consent order to authorise the construction and operation of the offshore wind development Dogger Bank Teesside A & B, including the onshore infrastructure near Eston, Redcar and Cleveland. Dogger Bank Teesside A & B is the second stage of development of the Dogger Bank Zone in the North Sea (the first stage being Dogger Bank Creyke Beck). It comprises two offshore wind farm arrays (Dogger Bank Teesside A and Dogger Bank Teesside B), each with a generating capacity of up to 1.2 gigawatts, and associated infrastructure. Forewind's proposed application to the Secretary of State seeks development consent for the construction and operation of both.

The full notice can be viewed at:

### Blyth Offshore Demonstrator – Geotechnical Survey

A Geotechnical Survey is planned around the location of the Blyth Demonstrator Site. The works will be undertaken by Horizon Geosciences Ltd UK, using the vessel 'Horizon Geobay'. RSS Marine have been appointed to undertake on behalf of Horizon Geosciences Ltd UK the role of fisheries liaison. The vessel will be a DP2 vessel that requires no mooring or anchoring arrangements and will not be towing any survey equipment. The geotechnical campaign will involve drilling geotechnical boreholes to recover rock core samples, in association with the development of the NAREC site.

## Forewind Limited Dogger Bank Teesside A & B Section 48, Planning Act 2008

### Regulation 4, The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009

#### Notice of the proposed application for a development consent order (DCO) to construct and operate the offshore wind development Dogger Bank Teesside A & B, including onshore infrastructure in the Borough of Redcar and Cleveland.

1. Notice is hereby given that Forewind Limited (Forewind) of 55 Vastern Road, Reading, Berkshire, RG1 8BU intends to apply to the Secretary of State under section 37 of the Planning Act 2008 ("the Act") for a development consent order (DCO) to authorise the construction and operation of the Dogger Bank Teesside A & B offshore wind development ("the Development").

2. Dogger Bank Teesside A & B is the second stage of development of the Dogger Bank Zone in the North Sea (the first stage being Dogger Bank Creyke Beck). It comprises two offshore wind farm arrays (Dogger Bank Teesside A and Dogger Bank Teesside B) each with a generating capacity of up to 1.2 gigawatts and associated infrastructure. Dogger Bank Teesside A array is 560km<sup>2</sup> in area and 196 kilometres at its closest point from the coast. Dogger Bank Teesside B array is 593km<sup>2</sup> in area and 165 kilometres at its closest point from the coast. Given that the generating capacity of the Development is more than 100 megawatts, an application for development consent is required to be made to the Secretary of State under the provisions of the Act.

3. Forewind's proposed application to the Secretary of State seeks development consent for the construction and operation of both Dogger Bank Teesside A and Dogger Bank Teesside B. The proposals include export cables that will connect the offshore wind farm arrays to the UK on the Teesside coast between Redcar and Marske-by-the-Sea; and onshore cables from the coast to the converter stations and substation near the Wilton Complex. All onshore works are located in the Borough of Redcar and Cleveland.

4. Dogger Bank Teesside A & B, comprising Dogger Bank Teesside A and Dogger Bank Teesside B, will combined incorporate the following elements:

#### Offshore

- Up to 400 wind turbines with supporting tower structures, foundations fixed to the seabed and associated support and access structures;
- Two offshore high voltage direct current (HVDC) converter platforms with foundations fixed to the seabed;
- Up to eight offshore collector platforms with foundations fixed to the seabed;
- Up to four offshore accommodation or helicopter platforms with foundations fixed to the seabed and including facilities for vessels and helicopters for operations and maintenance activities;
- Offshore platforms may be co-joined to create a combined platform, resulting in a combined offshore platform comprising two or more of the platform structures described above;
- Up to ten offshore meteorological monitoring stations with foundations fixed to the seabed;
- Subsea cables between the elements of offshore infrastructure described above;
- Offshore export cables carrying electricity from the offshore HVDC converter platforms to the Teesside coast; and
- Ancillary works including: cable and pipeline crossing structures; protection against foundation scour and subsea damage, cable protection measures and vessel-mooring facilities.

#### Onshore in the Borough of Redcar and Cleveland

- Underground cable transition joint bays at the landfall, located between Redcar and Marske-by-the-Sea on the Teesside coast;
- Underground HVDC export cables running approximately seven kilometres from the landfall joint bays to the two converter stations;
- Two converter stations located within the Wilton Complex, with associated access, fencing, landscaping and drainage;
- Underground high voltage alternating current (HVAC) export cables running approximately two kilometres from the converter stations to the existing National Grid substation at Lackenby, where connection works will be carried out;
- Ancillary works including: temporary working areas, permanent and temporary access roads, and service corridors.

5. The DCO will include a number of other provisions, including those which:

- authorise the compulsory purchase of land and rights over land, if necessary, to construct and maintain the Development;
- allow all or part of the benefit and rights of the DCO to be transferred to other person(s); and
- provide for deemed Marine Licences.

6. The Development is "EIA development" for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. This means that the proposed works require an Environmental Impact Assessment and the proposed application will therefore be accompanied by an Environmental Statement.

7. The documents, plans and maps showing the nature and location of the proposed development, including the preliminary information compiled to date on environmental impacts ("Preliminary Environmental Information"), will be available from to view from **4 November 2013 until 20 December 2013** at the places and times set out below and download from **[www.forewind.co.uk](http://www.forewind.co.uk)**

8. The Preliminary Environmental Information includes a draft Environmental Statement and draft Non-Technical Summary of the Environmental Statement.

## Forewind Limited

### Dogger Bank Teesside A & B

### Section 48, Planning Act 2008

#### Regulation 4, The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009

#### Notice of the proposed application for a development consent order (DCO) to construct and operate the offshore wind development Dogger Bank Teesside A & B, including onshore infrastructure in the Borough of Redcar and Cleveland.

1. Notice is hereby given that Forewind Limited (Forewind) of 55 Vastern Road, Reading, Berkshire, RG1 8BU intends to apply to the Secretary of State under section 37 of the Planning Act 2008 ("the Act") for a development consent order (DCO) to authorise the construction and operation of the Dogger Bank Teesside A & B offshore wind development ("the Development").
2. Dogger Bank Teesside A & B is the second stage of development of the Dogger Bank Zone in the North Sea (the first stage being Dogger Bank Creyke Beck). It comprises two offshore wind farm arrays (Dogger Bank Teesside A and Dogger Bank Teesside B) each with a generating capacity of up to 1.2 gigawatts and associated infrastructure. Dogger Bank Teesside A array is 560km<sup>2</sup> in area and 196 kilometres at its closest point from the coast. Dogger Bank Teesside B array is 593km<sup>2</sup> in area and 165 kilometres at its closest point from the coast. Given that the generating capacity of the Development is more than 100 megawatts, an application for development consent is required to be made to the Secretary of State under the provisions of the Act.
3. Forewind's proposed application to the Secretary of State seeks development consent for the construction and operation of both Dogger Bank Teesside A and Dogger Bank Teesside B. The proposals include export cables that will connect the offshore wind farm arrays to the UK on the Teesside coast between Redcar and Marske-by-the-Sea; and onshore cables from the coast to the converter stations and substation near the Wilton Complex. All onshore works are located in the Borough of Redcar and Cleveland.
4. Dogger Bank Teesside A & B, comprising Dogger Bank Teesside A and Dogger Bank Teesside B, will combined incorporate the following elements:

#### Offshore

- Up to 400 wind turbines with supporting tower structures, foundations fixed to the seabed and associated support and access structures;
- Two offshore high voltage direct current (HVDC) converter platforms with foundations fixed to the seabed;
- Up to eight offshore collector platforms with foundations fixed to the seabed;
- Up to four offshore accommodation or helicopter platforms with foundations fixed to the seabed and including facilities for vessels and helicopters for operations and maintenance activities;
- Offshore platforms may be co-joined to create a combined platform, resulting in a combined offshore platform comprising two or more of the platform structures described above;
- Up to ten offshore meteorological monitoring stations with foundations fixed to the seabed;
- Subsea cables between the elements of offshore infrastructure described above;
- Offshore export cables carrying electricity from the offshore HVDC converter platforms to the Teesside coast; and

- Ancillary works including: cable and pipeline crossing structures; protection against foundation scour and subsea damage, cable protection measures and vessel-mooring facilities.

#### Onshore in the Borough of Redcar and Cleveland

- Underground cable transition joint bays at the landfall, located between Redcar and Marske-by-the-Sea on the Teesside coast;
- Underground HVDC export cables running approximately seven kilometres from the landfall joint bays to the two converter stations;
- Two converter stations located within the Wilton Complex, with associated access, fencing, landscaping and drainage;
- Underground high voltage alternating current (HVAC) export cables running approximately two kilometres from the converter stations to the existing National Grid substation at Lackenby, where connection works will be carried out;
- Ancillary works including: temporary working areas, permanent and temporary access roads, and service corridors.

#### 5. The DCO will include a number of other provisions, including those which:

- authorise the compulsory purchase of land and rights over land, if necessary, to construct and maintain the Development;
- allow all or part of the benefit and rights of the DCO to be transferred to other person(s); and
- provide for deemed Marine Licences.

6. The Development is "EIA development" for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. This means that the proposed works require an Environmental Impact Assessment and the proposed application will therefore be accompanied by an Environmental Statement.

7. The documents, plans and maps showing the nature and location of the proposed development, including the preliminary information compiled to date on environmental impacts ("Preliminary Environmental Information"), will be available from to view from **4 November 2013 until 20 December 2013** at the places and times set out below and download from **www.forewind.co.uk**

8. The Preliminary Environmental Information includes a draft Environmental Statement and draft Non-Technical Summary of the Environmental Statement.

## Forewind Limited Dogger Bank Teesside A & B Section 48, Planning Act 2008

### Regulation 4, The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009

#### Notice of the proposed application for a development consent order (DCO) to construct and operate the offshore wind development Dogger Bank Teesside A & B, including onshore infrastructure in the Borough of Redcar and Cleveland.

1. Notice is hereby given that Forewind Limited (Forewind) of 55 Vastern Road, Reading, Berkshire, RG1 8BU intends to apply to the Secretary of State under section 37 of the Planning Act 2008 ("the Act") for a development consent order (DCO) to authorise the construction and operation of the Dogger Bank Teesside A & B offshore wind development ("the Development").

2. Dogger Bank Teesside A & B is the second stage of development of the Dogger Bank Zone in the North Sea (the first stage being Dogger Bank Creyke Beck). It comprises two offshore wind farm arrays (Dogger Bank Teesside A and Dogger Bank Teesside B) each with a generating capacity of up to 1.2 gigawatts and associated infrastructure. Dogger Bank Teesside A array is 560km<sup>2</sup> in area and 196 kilometres at its closest point from the coast. Dogger Bank Teesside B array is 593km<sup>2</sup> in area and 165 kilometres at its closest point from the coast. Given that the generating capacity of the Development is more than 100 megawatts, an application for development consent is required to be made to the Secretary of State under the provisions of the Act.

3. Forewind's proposed application to the Secretary of State seeks development consent for the construction and operation of both Dogger Bank Teesside A and Dogger Bank Teesside B. The proposals include export cables that will connect the offshore wind farm arrays to the UK on the Teesside coast between Redcar and Marske-by-the-Sea; and onshore cables from the coast to the converter stations and substation near the Wilton Complex. All onshore works are located in the Borough of Redcar and Cleveland.

4. Dogger Bank Teesside A & B, comprising Dogger Bank Teesside A and Dogger Bank Teesside B, will combined incorporate the following elements:

#### Offshore

- Up to 400 wind turbines with supporting tower structures, foundations fixed to the seabed and associated support and access structures;
- Two offshore high voltage direct current (HVDC) converter platforms with foundations fixed to the seabed;
- Up to eight offshore collector platforms with foundations fixed to the seabed;
- Up to four offshore accommodation or helicopter platforms with foundations fixed to the seabed and including facilities for vessels and helicopters for operations and maintenance activities;
- Offshore platforms may be co-joined to create a combined platform, resulting in a combined offshore platform comprising two or more of the platform structures described above;
- Up to ten offshore meteorological monitoring stations with foundations fixed to the seabed;
- Subsea cables between the elements of offshore infrastructure described above;
- Offshore export cables carrying electricity from the offshore HVDC converter platforms to the Teesside coast; and

- Ancillary works including: cable and pipeline crossing structures; protection against foundation scour and subsea damage, cable protection measures and vessel-mooring facilities.

#### Onshore in the Borough of Redcar and Cleveland

- Underground cable transition joint bays at the landfall, located between Redcar and Marske-by-the-Sea on the Teesside coast;
- Underground HVDC export cables running approximately seven kilometres from the landfall joint bays to the two converter stations;
- Two converter stations located within the Wilton Complex, with associated access, fencing, landscaping and drainage;
- Underground high voltage alternating current (HVAC) export cables running approximately two kilometres from the converter stations to the existing National Grid substation at Lackenby, where connection works will be carried out;
- Ancillary works including: temporary working areas, permanent and temporary access roads, and service corridors.

5. The DCO will include a number of other provisions, including those which:

- authorise the compulsory purchase of land and rights over land, if necessary, to construct and maintain the Development;
- allow all or part of the benefit and rights of the DCO to be transferred to other person(s); and
- provide for deemed Marine Licences.

6. The Development is "EIA development" for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. This means that the proposed works require an Environmental Impact Assessment and the proposed application will therefore be accompanied by an Environmental Statement.

7. The documents, plans and maps showing the nature and location of the proposed development, including the preliminary information compiled to date on environmental impacts ("Preliminary Environmental Information"), will be available from to view from **4 November 2013 until 20 December 2013** at the places and times set out below and download from [www.forewind.co.uk](http://www.forewind.co.uk)

8. The Preliminary Environmental Information includes a draft Environmental Statement and draft Non-Technical Summary of the Environmental Statement.

## Forewind Limited Dogger Bank Teesside A & B Section 48, Planning Act 2008

### Regulation 4, The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009

#### Notice of the proposed application for a development consent order (DCO) to construct and operate the offshore wind development Dogger Bank Teesside A & B, including onshore infrastructure in the Borough of Redcar and Cleveland.

1. Notice is hereby given that Forewind Limited (Forewind) of 55 Vastern Road, Reading, Berkshire, RG1 8BU intends to apply to the Secretary of State under section 37 of the Planning Act 2008 ("the Act") for a development consent order (DCO) to authorise the construction and operation of the Dogger Bank Teesside A & B offshore wind development ("the Development").
2. Dogger Bank Teesside A & B is the second stage of development of the Dogger Bank Zone in the North Sea (the first stage being Dogger Bank Creyke Beck). It comprises two offshore wind farm arrays (Dogger Bank Teesside A and Dogger Bank Teesside B) each with a generating capacity of up to 1.2 gigawatts and associated infrastructure. Dogger Bank Teesside A array is 560km<sup>2</sup> in area and 196 kilometres at its closest point from the coast. Dogger Bank Teesside B array is 593km<sup>2</sup> in area and 165 kilometres at its closest point from the coast. Given that the generating capacity of the Development is more than 100 megawatts, an application for development consent is required to be made to the Secretary of State under the provisions of the Act.
3. Forewind's proposed application to the Secretary of State seeks development consent for the construction and operation of both Dogger Bank Teesside A and Dogger Bank Teesside B. The proposals include export cables that will connect the offshore wind farm arrays to the UK on the Teesside coast between Redcar and Marske-by-the-Sea; and onshore cables from the coast to the converter stations and substation near the Wilton Complex. All onshore works are located in the Borough of Redcar and Cleveland.
4. Dogger Bank Teesside A & B, comprising Dogger Bank Teesside A and Dogger Bank Teesside B, will combined incorporate the following elements:

#### Offshore

- Up to 400 wind turbines with supporting tower structures, foundations fixed to the seabed and associated support and access structures;
- Two offshore high voltage direct current (HVDC) converter platforms with foundations fixed to the seabed;
- Up to eight offshore collector platforms with foundations fixed to the seabed;
- Up to four offshore accommodation or helicopter platforms with foundations fixed to the seabed and including facilities for vessels and helicopters for operations and maintenance activities;
- Offshore platforms may be co-joined to create a combined platform, resulting in a combined offshore platform comprising two or more of the platform structures described above;
- Up to ten offshore meteorological monitoring stations with foundations fixed to the seabed;
- Subsea cables between the elements of offshore infrastructure described above;
- Offshore export cables carrying electricity from the offshore HVDC converter platforms to the Teesside coast; and

- Ancillary works including: cable and pipeline crossing structures; protection against foundation scour and subsea damage, cable protection measures and vessel-mooring facilities.

#### Onshore in the Borough of Redcar and Cleveland

- Underground cable transition joint bays at the landfall, located between Redcar and Marske-by-the-Sea on the Teesside coast;
- Underground HVDC export cables running approximately seven kilometres from the landfall joint bays to the two converter stations;
- Two converter stations located within the Wilton Complex, with associated access, fencing, landscaping and drainage;
- Underground high voltage alternating current (HVAC) export cables running approximately two kilometres from the converter stations to the existing National Grid substation at Lackenby, where connection works will be carried out;
- Ancillary works including: temporary working areas, permanent and temporary access roads, and service corridors.

#### 5. The DCO will include a number of other provisions, including those which:

- authorise the compulsory purchase of land and rights over land, if necessary, to construct and maintain the Development;
- allow all or part of the benefit and rights of the DCO to be transferred to other person(s); and
- provide for deemed Marine Licences.

6. The Development is "EIA development" for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. This means that the proposed works require an Environmental Impact Assessment and the proposed application will therefore be accompanied by an Environmental Statement.

7. The documents, plans and maps showing the nature and location of the proposed development, including the preliminary information compiled to date on environmental impacts ("Preliminary Environmental Information"), will be available from to view from **4 November 2013 until 20 December 2013** at the places and times set out below and download from **www.forewind.co.uk**

8. The Preliminary Environmental Information includes a draft Environmental Statement and draft Non-Technical Summary of the Environmental Statement.

## Consultation starts on Dogger Bank Teesside A&B

The final phase of pre-application consultation for offshore wind consortium Forewind's second stage of offshore wind energy development, Dogger Bank Teesside A & B began on Monday November 4.

The consultation, which starts with the publication of documents, plans and maps about the proposed development, will run for seven weeks until Friday 20 December. It will include a series of public events to be held in venues near the proposed landfall and cable route, at Redcar and Lazenby.

Dogger Bank Teesside A & B will comprise two up to 1.2GW offshore wind farms which will connect via underground cables into the national grid at the existing Lackenby substation, in Redcar and Cleveland. Two new converter stations are also proposed for the south-western corner of the Wilton Complex.

With a total installed capacity of up to 2.4GW, it has the potential to generate around 8 terawatt hours (TWh) of green power every year, which is equivalent to the electricity used annually by approximately 1.8 million British homes.

This consultation is the culmination of more than three years of work including onshore and offshore environmental and engineering surveys, consultation and technical assessments. The documents to be published include the draft Environmental Statement and a Non-Technical Summary giving an overview of the project, its potential impacts and proposed mitigation.

Forewind Project Manager Chris Nunn said it is the main opportunity for stakeholders, including the members of the public, to view and comment on the proposals before the consent application is submitted. "The aim of this consultation is to gather views and feedback on the proposals, and give those with an interest in the project another opportunity

to influence the way Dogger Bank Teesside A & B is developed," he said.

Forewind's consultation documents will be available to view at local libraries during the consultation period, and to download from [www.forewind.co.uk](http://www.forewind.co.uk) along with electronic feedback forms.

There will be three public events in November enabling stakeholders, in particular the community living or working near the proposed onshore cable route and converter stations, to learn all about the project and submit their comments. Forewind staff will be on hand to answer questions and discuss the proposals.

"The consultation documents will be free to view at the public exhibitions, which all stakeholders are encouraged to attend," he said.

The events are on as follows:

Venue	Date(2013)	Time
The Hub, 28-29 Esplanade, Redcar, TS10 3AE	Friday 22 November	2.00pm-7.30pm
Lazenby Village Hall, High Street, Lazenby, TS6 8DU	Saturday 23 November	10.30am-4.30pm
Zetland Park Methodist Church, The Crescent, Redcar, TS10 3AU	Monday 25 November	11.00am-6.00pm

Consultation responses can be submitted in person at the public exhibitions, by email to [info@forewind.co.uk](mailto:info@forewind.co.uk), to our Freepost address or by calling Forewind on Freephone 0800 975 5636.

## Plans to cap pension charges

Will Goodhand,

Will Goodhand, Conservative Parliamentary Candidate for Middlesbrough South & East Cleveland recently welcomed the announcement of radical reforms to pension charges designed to help people who have worked hard and done the right thing by saving for their retirement.

Conservative MP and Financial Secretary to the Treasury Sajid Javid MP announced that the Government will:

- Introduce a cap on pension charges to save hardworking people thousands of pounds.
- Make sure employers and savers are better-informed about the pensions available, so they can make the choice that is best for them.

The Government will now consult on the best way of reducing these charges.

Will Goodhand, Conservative Parliamentary Candidate for Middlesbrough South & East Cleveland commented:

"This is great news for hardworking people in Middlesbrough South & East Cleveland who are doing the right thing and saving for retirement. It will help ensure they get the value for money from their pension that they deserve.

"Conservatives have already taken action to cut fuel duty and income tax and we are changing the law to force energy companies to put customers on the lowest tariff.

"This announcement is another step Conservatives in Government are taking to help people who want to work hard and get on in life."

Local MP Tom Blenkinsop said: "After resisting for over a year and saying Labour was scaremongering over the need for a cap on pension charges, the Government have now adopted in full Ed Miliband's policy that he announced in September 2012. This is another humiliating u-turn by David Cameron's Tory led government."

## Saltburn Library celebrates big birthday

Saltburn Library celebrated its 50th birthday at its current location on Monday the 21st October.

Over 60 people joined in the celebrations recently, with local singers Liz and Steve playing music from the sixties. Some of the previous library staff joined the current staff and helped in the cutting of a special anniversary cake.

Saltburn Library has changed a lot over the years. In the 60's libraries were fairly quiet places and predominantly about books. Today they are not so quiet especially if you go to the library on a Monday or Wednesday mornings when you will hear staff singing with the young children at their Rhyme time sessions.

Saltburn is a typically modern Library which is a multi functional building acting as a venue to many local community groups and also as a gateway to the Council. The library also offers a Tourist Information Service.

The celebrations continued in to the week which also included a talk by local historian Tony Lynn on the History of Saltburn Library and shops, a writers' workshop run by author Rick Lee, a Rhyme time anniversary party and a retro crafts session for school age children.

Congratulations and here's to the next 50 years.

Stuart Smith  
Independent Councillor  
Saltburn Ward
